

UniFORCE

P3 Web Proxy Appliance of Linux & OSS Best Solution Award 2007

UniFORCE is pleased to inform you that UniFORCE P3 Web Proxy Appliance (P3) has won the Linux & OSS Best Solution Award 2007 . The Award Trophy will be presented on 17 April 2007 (Tuesday) during the ICT Expo Seminar - "The Role of Open Source Software in Green ICT" , which is organized by Hong Kong Linux Industry Association and is sponsored by Hong Kong Productivity Council .

P3 Web Proxy Appliance

UniFORCE P3 Web Proxy Appliance is a web proxy , an innovative technology, which helps to control and manage web access. With the increasing reliance on Internet and Network Access Control (NAC),our P3 can help to save business cost by managing company bandwidth usage and filtering business network from virus, sexual and violent contents to the access of the staff. Our P3 is already being used by many enterprises in various countries, including Hong Kong , China (various cities), Philippines, Indonesia and USA.This P3 is suitable for all kind of businesses.
